

Aircraft Maintenance Engineer (AME)

Build Your Career, Build Your Life

📍 Whitehorse, Yukon | Full-Time

The Opportunity

We're currently looking for licensed Aircraft Maintenance Engineers (AMEs) to join our team.

This is more than another maintenance position. It's an opportunity to join a company that values flexibility, teamwork, continuous learning, and quality workmanship while living in one of Canada's most spectacular regions.

About Capital Aerospace

At Capital Aerospace, we believe a successful career shouldn't come at the expense of the life you want to live.

We're a growing helicopter maintenance organization based in Whitehorse, Yukon, providing maintenance support across a diverse fleet of helicopters operating in some of Canada's most unique environments.

Whether you're passionate about remote bush operations, want a healthy work-life balance, are looking to grow into leadership, or simply want to maximize your earning potential, we'll work with you to create a career that supports your ambitions..

We believe our people are our greatest asset, and we're committed to creating an environment where talented AMEs can do exceptional work while enjoying an exceptional lifestyle.

Why Capital Aerospace?

Career Development

As our company grows, so do the opportunities for our employees. Training and professional development are encouraged whenever possible.

Flexibility

We recognize that everyone's priorities are different. Our goal is to build careers that support both our operational needs and our employees' personal goals.

Competitive Compensation

We offer competitive wages and benefit packages that recognize your experience and contribution.

Why Whitehorse...

Living in Whitehorse means spending less time commuting and more time doing what you enjoy. Whitehorse is just a 2.5-hour direct flight from Vancouver or Calgary, with convenient daytime service.

Within minutes of leaving work you can be:

- Hiking / mountain biking world-class trails
- Rafting, canoeing, and fishing on pristine lakes and rivers
- Skiing or snowmobiling
- Camping under the Northern Lights

Whitehorse offers the amenities of a modern city while maintaining the welcoming atmosphere of a close-knit northern community.

For many of our employees, the Yukon isn't simply where they work, it's where they play.

Your Role

What You'll Do!?

As an Aircraft Maintenance Engineer, you'll perform maintenance on a variety of helicopter types while maintaining the highest standards of safety and quality.

Responsibilities include:

- Scheduled and unscheduled aircraft maintenance
 - Inspection, troubleshooting and repairs
 - Completion of technical documentation and administrative collaboration
 - Supporting field maintenance operations when required
 - Collaborate closely with flight operations, customers, and internal teams to understand operational priorities, coordinate maintenance activities, and support safe and efficient aircraft availability
 - Maintaining compliance with Transport Canada regulations and company procedures
 - Contribute to a collaborative culture by sharing your expertise, mentoring less experienced employees, and supporting colleagues across all areas of the organization
-

Qualifications

We're looking for motivated professionals who take pride in their work.

Minimum qualifications include:

- Valid Canadian AME licence
- Valid Canadian Driver's Licence
- Ability to self manage and work within a team
- Strong organizational and problem-solving skills
- Commitment to safety, quality and professionalism
- Previous ACA authority within a Canadian AMO

The following experience is considered an asset:

- Approved type course training on one or more of the following aircraft types:
 - Bell 206 - 407 series
 - Airbus AS350 series
- Previous experience working on one or more of the following engine types:
 - LTS-101 series
 - Safran Arriel 2 series
 - Rolls Royce series 2 & 4
- Experience working in remote environments
- Experience supporting helicopter operations management
- Quality Assurance management
- or previous experience in aviation safety

If you don't meet every qualification but believe you'd be a great fit, we'd still like to hear from you..

The Conversation Starts Here

Changing jobs and sometimes moving across the country is a big decision.

Whether you're actively looking for a new opportunity or simply curious about what life and work in the Yukon could look like, we'd be happy to talk.

Your Career. Your Terms.

We know every AME is looking for something different.

That's why we're open to discussing opportunities that fit your goals, including:

- Full-time positions
- Contract opportunities
- Rotational schedules
- Relocation to Whitehorse
- Living outside the Yukon while working a customized schedule

If it makes sense for both you and our company, we're willing to explore it.

Compensation & Long-Term Opportunities

Every AME brings unique experience, goals, and expectations. That's why we'd rather have an open conversation about what matters most to you.

As Capital Aerospace grows, so do the opportunities for our team. Employees can have the opportunity to participate in our collective helicopter ownership ventures, to invest in the future of both the company and yourself.

We believe the people who help build our company should have the opportunity to share in its future.

Moving to the Yukon?

Moving is a big decision, we're here to help.

We offer a complete relocation package, including temporary accommodation when you arrive, giving you the time to settle in, explore the Yukon, and find the home that's right for you...

Get in touch...

Whether you're ready to apply or just exploring your options, we'd love to hear from you..
